Amongst those who arrived recently at Quebec on the "Empress of France" were Sir John Simon returned as the most distinguished lawyer in England, Lady Simon, their son Gilbert Simon, and R. J. Simpson, a relative. Sir John came to Canada for a rest and a tour of the country. He was here before, several years ago and then "loved Canada so much that he thought he should return here with his family. The famous lawyer and party spent a few days at the Chateau Frontenac, Quebec, motored to Montreal where they spent a few days at the Place Viger Hotel.

The party have been spending a holiday in the Canadian Adirondack, visiting all the delightful spots, and were charmed with the mountains.

Sir John's son, Gilbert, who has just won a scholarship at Balliol with a friend J. C. Langton, from Montreal, accompanied by Mr. McGill, set out with guides to climb Mount Temple, 11,626 feet high, at

(1) Returning from Wapta Camp. On the extreme left is Gilbert Simon and next to him is his father.

(2) On the Peak of Mount Temple.

(3) Gaining Top of Mt. Temple. MacKay and the accompanying photographs are interesting souvenirs of this memorable climb.

RED POPPY WILL BE EMBLEM  
OF HEROISM AND SACRIFICE  
ON COMING ARMISTICE DAY

Poppies made by the women and children in the devastated regions of France will be sold in Strathmore on Armistice Day (November 11) to raise money for the Red Cross. The G.W.V.A. Women's Auxiliary in order that those who remember the women who gave and the men who have in the last Great War may indicate their appreciation of the sacrifice made, by wearing a replica of the flower which blossomed where the graves of our dead in Flanders fields.

The natural red poppy will be sold at 10 cents a dozen. However, the large size of the flower and the weather, cross-stitch and bouquets from \$2.50 to \$5 each.

The idea was first advanced in the United States last year and met with such general approval that it is taking the form of a national custom. The wearing of the poppy as a memorial flower provides an outward expression of the sentiment in the hearts of the people of the Allied nations. It is, therefore, considered fitting that the custom should be adopted as a national one in this Empire, as well as in the United States.

Made in France  
The poppies for these campaigns are made by the women and children of devastated areas of France and the bulk of the proceeds derived from the sale thereof is utilized in their rehabilitation. While there is no room for doubt that the cause is a worthy one, and while the G.W.V.A. earnestly desire to help these in every way possible, it is nevertheless, apparent that public opinion in Canada would be opposed to the introduction of any large sum of money to France in the face of the existing distress here.

The G.W.V.A. therefore, decided to send Madame Guerin's proposal so as to permit individual branches to secure funds for local relief purposes, while at the same time contributing to relief work in France. The amended suggestion is that branches participating in the poppy campaign on November 11, should order the number of poppies considered necessary, and at the conclusion of the campaign forward to headquarters only the amount necessary to pay for the poppies actually sold.

There are three worthy objects which it is hoped will be attained by this campaign. These are as follows:

To magnify the custom of wearing the poppy as a memorial flower on Armistice Day, and thus cherish in perpetuity the memory of our sacred dead.

To provide bond branches with Red Poppies to meet the distress which is certain to be occasioned by the severe unemployment during the coming winter.

To aid the orphan children of the devastated areas in France to be sent home as well as to provide them at a reasonable price, the repairs to the site of the Flanders poppy, which they are manufacturing.

## Invitation Home

A. Pierson, A. Hebble and families have just returned from England and pleasant chicken-cooking trip to Rimini. The party bagged about 250 birds of all kinds.

Herb Hoffman who has just returned from B.C., is taking over his farm and will operate it himself hereafter. Arthur Johnson and Tom Alder spent a few days in the city during the week chicken showing and visiting friends.

Everything is completely finished in this district, Robert Allan being too late to pull in, in the last of the week. Mr. and Mrs. John Swartz and family of five children are leaving soon for three months vacation in Meriden, Miss. U.S.A. Mr. Swartz and his son, John, are staiders of the C.N.R. and C.P.R. crossing near Inverlake.

Charles Cowell is building an addition to his farm home here. Stanley Lee is going into farming for the winter, having secured a few head of cattle.

Thousands of acres of unimproved land in this district are being bought by bartered during the fine weather. Within the next few weeks there will be known residents of Inverlake have been married. "W. W. Thoms, Peter Vidal and the Petersons."

There is a feeling in the district that food is just a little short for the number of stock being carried over if it is a "bad" winter. Cattle are being pastured in suitable fields at \$1.25 per head per month, and a few horses at 75 cents per month.

Quite a number of old time residents of this neighborhood have decided to be Canucks for good, and are taking on their citizenship papers in time to vote at the coming election. This is good. Any country that is good enough to live in and fill our pockets, is good enough to deserve our active citizenship.

Armistice Day Is  
November 11

Notwithstanding the efforts of the Federal authorities, organized veterans are unable to get leave to attend the day of Armistice Day. The Dominion Command of the G.W.V.A., at the recent convention in Port Arthur, went on record as stating that veterans would take no part in any celebration held on November 11.

It is a historical fact that the G.W.V.A. was signed by the Dominion on November 10, 1918, and though the Peace Treaty was signed in July of the following year, yet the former date was the one on which hostilities actually ceased.

If there is any date which should be observed, it is the 11th of November. It is a day which will prove to be a day of peace and the end of the millions of men changed in life who were rescued from what was a virtual sentence of death. They were all willing to go through with the fight to preserve freedom and peace, and the lives of freedom had doubtless to throw up the sponge under the one that witnessed a wonderful realization of feeling, and a great determination that it would always be remembered.

To everyone, whether active or not, November 11 should be a day of prayer and thanksgiving. Another day of mourning was not sealed on this which was conducted in which it had been the heaviest of suffering and the heaviest of loss.

Another day of mourning was not sealed on this which was conducted in which it had been the heaviest of suffering and the heaviest of loss. The losses and suffering of the war are not forgotten, but the peace and the lives of freedom had doubtless to throw up the sponge under the one that witnessed a wonderful realization of feeling, and a great determination that it would always be remembered.

The world is gradually righting itself, though the danger is not yet past, and a reversion of what has been the degraded state of civilization, which is the primary cause of the devastation existing in Canada and elsewhere.

The world is gradually righting itself, though the danger is not yet past, and a reversion of what has been the degraded state of civilization, which is the primary cause of the devastation existing in Canada and elsewhere.

It was a visible sign. The two birds of miles across land and water, the rear of cannon had been heard, and day without interruption, for over four years. For four years we have seen parents, wives, daughters and sons had been living in fear of the fate of their men on the battlefield, and too often, also, receiving the fatal telegrams that signify their death.

Why should it be in the midst of small home politicians, for reasons which are obscure, to attempt to alter the date of the anniversary of the greatest event which has happened in our time.

## IRRICANA NEWS

The first price of cattle is apparently not hindering the selling of them as a couple of loads are shipped from our local dealer, Mr. Elliott.

Mr. E. Wade spent the week end in Calgary.

Mr. C. P. Swanson held his sale on Monday. No horses or cattle were sold, there being no buyers. However, everything else went in reasonable prices.

It has been reported that Mrs. Calder, of this neighborhood, is very ill.

A box social was held in the Godefrich schoolhouse Friday evening in aid of the church. A number of young people from Irricana took part in the programme.

A number of our citizens attended the show given here on Thursday evening. The entertainment was given by the Bame's travelling showmen.

## ARDENOTE NOTES

The local C.P.A. held a meeting in the school on the 15th last and received the report of the delegates to the convention of the East Calgary district association.

After reading the correspondence and transacting the other business, the meeting adjourned to meet on November 15th at 8 p.m. in the school house and every member is asked to

## Local Notings

OF LOCAL INTEREST  
Readers are requested to send in items for this column not later than 12 o'clock Monday noon, preceding day of publication. All local news items are welcomed by the Standard. Phone 17 or 18.

We published a note last week to the effect that Mr. Geo. Thurston was hospitalized in Calgary suffering from partial paralysis. The source of our information was apparently inaccurate as Mr. Thurston informs us that the paralysis is passing and he is now able to walk and talk. He is now in the hospital and is being treated for his stomach trouble. We trust that Mr. Thurston will soon be restored to his usual health and strength.

Twenty-five percent of all this season's wall papers. Come and see J. K. Luck about it. 2146

The following impressive commotion reached us from a young lad, last week: "Would the two lads who were in Calgary last Friday night coming to the home of our mother, at something around the window. How come?"

The wedding was held, place on November 7th of Miss Edith Margaret Jones to Mr. George Hurds. The young couple are both well-known locally, having been in Calgary at Ardenote.

Rev. J. J. Smith, a Methodist, was in charge of the service. The ladies and society's luncheon party at the home of Mr. and Mrs. E. H. Hall was given, mainly and well. The guests were well and spirits cheered by the winter. The dinner was served with courses of pumpkin pie and many in some time songs completed the evening.

Remember! November 26th, the day of the Annual Chorus supper by the ladies of the Union Church.

We have received another letter from Mrs. J. E. Jones, a woman with political interests, but she wants to give space or of it has none. It largely consists of political matters. While we are ready to give a reason also space to letters in the edition, we cannot afford to have a large amount of space monopolized weekly by matter which is not news. Mr. Jones might be well advised to secure a hall for the delivery of his views, as the other politicians are doing.

A meeting of the Hospital Board for the proposed new district comprising a large extent of territory on the west side of Calgary will be held in the City Hall, Calgary, tomorrow.

Morris Fred Miller, W. C. Brown, and Bert Brown were out on a house trip last week.

M. D. Bow Valley conducted a tax sale of property in arrears of taxes on Saturday morning in the Town Hall. A number of parcels were sold, of our going at \$2,000. Later on a meeting of the Municipal Council was held in their office. The tax sale for M. D. Koma also came off the same day at the Municipal Office, northwest of Ardenote.

Special credit is due to the volunteers who assisted in levelling the grounds around the Memorial Hall last week. These included Messrs. A. Brown, W. and H. Riden, A. Van Thusen, and W. Spengler, who contributed their time and labor.

Mr. R. S. Stokton is preparing a lot of time evergreen, to be planted in front of the building this winter.

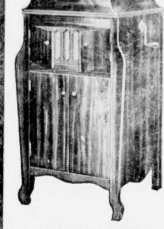

Mr. John Macdonald, editor of the Standard, attended a meeting of Southern Alberta members of the Canadian Weekly Newspaper Association, held in Calgary on Monday.

A golf tournament is to be held on the Strathmore links on Monday afternoon, November 7th. All golfers in the district are invited to take part. Golf is taking a strong hold locally despite the lackiness of the autumn.

Considerable improvements are contemplated on the links next spring.

We have been so busy to announce the date when William Evans, the Progressive candidate for this constituency, will hold a meeting in address the electors of this district. Last one our earlier announcement.

## MUSIC LOVERS. Attention.

You have, no doubt, heard of the famous "BERTHOVEN RECORDING GRAPHS." These machines caused a sensation when it was officially tested by musical critics and experts. They claim it has the finest quality tone they ever heard on any phonograph, also the beauty and finish of the cabinet is hard to beat. I have made a contract with the factory, and am now in a position to sell these phonographs at the greatly reduced price of \$120.00. Write in Minnegy, Waukegan, and Fumed Oak.

Call in and see this machine and convince yourself before buying elsewhere. Terms can be arranged. Yours for real music.

## THE MAIN ISSUE OF THE ELECTION

A large number of questions are being discussed in connection with the election, and will be discussed with greater and greater heat as the election date draws near. There is one issue, however, that transcends them all, and that is the future of western Canada, and the way out of the present conditions confronting the country.

There is no blinking the fact that Western Canada is not on a sound economic footing at the present time. The greatest industry in this country, is being operated at a loss. The products of the farm are being sold at less than the cost of production.

The census returns are not out yet, but they are partly known, and the increase in population of Canada has been disappointing. This last year more people have left Canada than have come into it.

It is acknowledged by all that Canada's need is more people to fill its vacant lands. There will be no scarcity of new settlers if those who are in the country at the present are making good. That is the only really effective immigration propaganda.

While the farmers continue to sell livestock and grain at a loss they cannot buy the goods they want, and therefore the business of the country stagnates. If agriculture is prosperous, every other line of business prospers, excepting possibly shipbuilding, hulls, and the few who suffer on the misfortunes of others.

The present conditions are partly due to the upheaval caused by the war. The war, though, was fought with the object on the part of the Allies of making this a better world for us all to live in. We must still keep our war aims in view and endeavor to translate them into reality.

The farmer is a combination of manufacturer, consumer, capitalist, and laborer. His product is one that is absolutely vital to existence, and it is therefore one that should always be sold at a profit above production.

The farmers are not to be blamed for organizing to protect their own interests. Every other body of producers is organized, and exerts a certain amount of influence in parliament. Of course, farmer, retailer, manufacturer, and laborer are interdependent on each other. The interest of one should be the interest of all.

The candidates who can present a solution for the present economic condition of Western Canada are the ones who will get the votes of Western Canada. So far none have done so. Men with ideas are wanted, and we have to hear these ideas expounded before December 6. Government is largely a matter of business, and the men we want to send to Ottawa are men whom we could trust to handle our own personal business for us, in the same way as existing directors of a joint stock company.

Western Canada has to look for an export market. The home market does not absorb what the farmer raises, in spite of the tariff. Therefore the main problem of Canada is to build up the export market. If that is done, problems of railroads, etc., will solve themselves.

Finally, there is no reason for pessimism. The country is all right. The present unrest is one of the healthiest signs of the times. We are selecting men just now to put the ship of state back on an even keel, and we will get them. But we all have got to do our own little bit to help. Individual action counts for more than governmental action.

SOCIALIST PUT UP F.  
WILLIAMS IN EAST CALGARY

Frank Williams, socialist candidate in the provincial election in July, will argue that Calgary needs the socialist solution, according to an announcement by officials of the socialist party in Calgary. The announcement of Mr. Williams' name for the Calgary race, makes a credit on his popularity in Calgary, and there are no doubt many more. The following is a list of those mentioned as candidates: National Labor and Democratic Party, A. L. Smith, K.C.; Liberal Party, Duncan Stewart; Conservative Party, J. F. A. Williams; United Independent Labor, Harry Sinclair; Socialist, Frank Williams; Independent Farmers, Frank Williams, J. Williams.

Frederick, N.E.—New Brunswick's summer season has extended into October this year, and many people were engaged last week in picking wild raspberries in the vicinity of the city. Visitors and there were also berries generally.

"REPENTANCE"  
By H. W. Gerhard, Antigonish

To Noble Gods, Unconquerable, We humbly bow the knee: We pray you let the furnace fire: Now Italy burn.

With all our families combining we in portents implore That thou wouldst our condition see And open gates to us.

We've stayed away, we must needs take with us something ahead: We've done those things that could not be done. The love we talked in keep: As crying souls we now repeat: Forgive us we implore: And all the things that thou dost desire: We'll do them every more.

What, for thy mercy with us still: Canst thou not mercy show: Shall and remove our future ill: And then be cast before: Then Noble Gods, we then defy: No longer we repent: Our good is yours or die: With justice our intent.

# Rye Growing in Alberta

Seventy kernels of rye on some heads, and the average with from thirty-four to fifty-five kernels, is what the Rye seed is producing on the Noble Farm in Southern Alberta. The heads are seven inches long, with the grain bursting through the chaff, and look more like winter wheat than the current grain. Just what the yield will be is still more or less of a surmise, which can only be verified after the crop is threshed. From appearances, however, thirty bushels to the acre seems to be a conservative estimate over the whole area planted. In some fields, fifty bushels appear to be nearer the mark.

In all, some 2,500 acres were seeded to this crop. Allowing thirty bushels to be the yield, 75,000 bushels will be harvested. At the present market price of \$1.10 per bushel, this crop alone has a cash value of almost one hundred thousand dollars. The growing of winter rye in Southern Alberta is more or less of recent origin, but it is rapidly becoming one of the staple crops on lands that cannot be irrigated. It produces heavily when conditions are not so ideal as for crops of spring wheat, and will maintain the driver of soil depletion. The Noble Foundation, farming thirty thousand acres in all, has always been the pioneer of winter farming methods. They have been experimenting with various kinds of rye for some time, and last fall obtained success of this winter rye in seed two and three acres. It is claimed that this

variety outyielded the ordinary rye, the spring seedling is cut in two kinds two to one. Whether this be true or not, the yield was sufficient to permit Mr. Noble to make it his biggest crop this season.

He has now some twelve thousand acres in summerfallow, and eight thousand acres of this will be sown down to Rye seed. Naturally, this considerably reduces the area left to be seeded to wheat and other spring crops, but Mr. Noble considers he will not lose anything by the change. He has found that rye is a more sure crop, and, given conditions that would produce a fifteen or twenty bushel yield of wheat, will produce twice as heavy.

The biggest advantage, though, is that all the Noble says will not be in a bad basket. If conditions are not favorable for a big winter crop, then the chances are that the rye will make up the difference. It is the basis of mixed farming operations on the grain grower. In the past there has always been a need for some seed crop, as it is at the grain in the ground in time. It is the easy matter to seed ten or twelve thousand acres to wheat within the short period at the farmer's disposal, by putting half the average into fall-sown crops each

## Facts Regarding The Grain Business

By CHARLES BIRKETT  
(Special to the Standard)

### Article VI

Under the method of running the farmer delivers his grain to the country elevator, and for each bush delivered receives a special bin ticket. This method is a little different to the others issued by the country elevator operator. It shows the gross weight, wagon weight, net weight and bin number. The dockage is also shown on the ticket, but there is no grade mentioned. The three quantities, among other things, that the identical grain delivered by the farmer to the elevator will be delivered by the elevator to the shipper's end. By this method of storage the farmer is insured of keeping the identity of the grain intact and when the time for sale comes, selling his own grade. The elevator operator must put the grain in a special bin and see that it is not mixed with other grain. If, however, there is an accidental nature the Canadian Grain Act provides for this. In delivering grain to the special binning the elevator or the elevator must take from each wagon delivered a sample. This sample is placed in a sample bag hanging on the elevator, provided by the elevator company, and which can be held by the shipper if he so desires. The sample bag can be transferred and the former should take notice of the number. The sample is used if the shipper is of the opinion that the identity of his grain has been preserved. If the shipper is of the opinion he must notify the elevator operator in writing and both he and the operator shall forward the sample sealed, with all charges, prepaid, to the Chief Clerk, Winnipeg.

To be considered with the elevator is the decision of the Chief Clerk to find and holding on both parties. Any new elevator company operating his grain. One of three men, the "elevator to grade and shipping ticket" which was dealt with last week.

### General Provisions

The rates charged by country elevators are approved of every year by that board of Grain, Commodities and an elevator company must charge operated by that company. They cannot discriminate as between parties.

Selling grain by the bin is the most possible form of selling grain. By this method the farmer gets the lowest price. In some cases it is impossible to get away from this method of disposing of grain, but whenever and wherever possible attempts should be made to cooperate with other farmers by pooling arrangements to make up a car lot or at least of receiving the elevator price which varies from 5c to 25c per bushel under the track price, the farmer would receive track price. If the farmer can still hold out for a while longer, it will pay him to send official inspection in Winnipeg before selling. If he will then receive "spot" prices which is the highest price and which price includes any premiums that may be paid. Premiums have been paid during the last 12 months, up to 20 cents per bushel.

Next week we will take up the grading and plotting of cars for export. (To be continued)

### Town of Strathmore

#### TAX SALE

NOTICE is hereby given that the following lands in the Town of Strathmore, in the Province of Alberta, will be offered for sale for arrears of taxes and costs, unless the same be sooner paid, on Saturday the 5th day of November 1921, commencing at the hour of 2 o'clock, afternoon, at the Town Hall, Strathmore, by the undersigned.

No. of	Lot	Block	Plan	Taxes	Costs
1	2	4	1810 N	\$78.06	\$5.00
17	29	4	1810 N	\$82.80	\$5.00
22	9	5	1811 P	\$28.01	\$5.00
6	7	31	3591 P	\$28.65	\$5.00
8	13	37	4751 R	\$12.29	\$5.00
6	7	16	585 R	\$6.25	\$5.00
22	24	2	4810 N	\$21.00	\$5.00

Dated at the Town of Strathmore, Alberta, this 15th day of September, 1921.

P. R. LILLY,

Secretary-Treasurer

Edmonton, Alta., Twenty-five bushels of wheat to the acre will be the average in the northern half of Alberta this year, according to a government estimate just issued.

### MORNING, NOON AND NIGHT

The gloriously mountains rise out of the plain. In snowy gray and gold ethereally clad. The gentle clouds and mist about them wind. And seeming full of sadness, are no sad.

Nor fairly mountains shimmering in the sky. All silver, glittering palace against the blue. We look and let them captivate our hearts.

Blind to their treasury, heathens of the few who understand it.

The sun has dipped behind the mountain now. An hour ago, the legend raised up to heaven. And earth in heaven's glow, deep blue. Send their quiet messages: Peace, all is forgiven. R.M.L.

Vancouver, B.C.—Thirty-five grain cars have been chartered during the last four weeks by the Vancouver Merchants' Exchange to carry lumber or grain from Pacific Coast ports. Six vessels cleared for British, and the others carry oil, timber, wheat, and the balance in grain. They include seven Japanese steamers, and British, three American and the balance Spanish, French, Dutch, Norwegian Swedish.

## Memorial Hall Will Be Open Soon

Work on the interior of the Memorial Hall is going ahead rapidly and the hall will probably be open in about two weeks time.

The letters finished up their job on Monday, and the plasterers are now busy. The two large furnaces which heat the hall are now on their way from Edmonton, and should be installed this week. The contract for heating has been given to the Young Plumbing Company, Calgary, they being the lowest tenderers.

The secretary of the Hall Fund, Mr. Peter Nalson, acknowledges receipt of the following amounts:

Anonymous	\$3.00
H. Barnes	\$1.00
J. Bosman	\$25.00
J. Verney	\$5.00
W. H. Bidson	\$10.00

Further contributions will be gratefully received by the Hall Committee, as a large financial responsibility is still resting on the Veterans.

Vancouver, B.C.—Several experienced lots of Canadian wheat are to go to Japan through the next few weeks. The total loaded thus far is in the neighborhood of 1,200 tons. The interest shown in Japan and the Orient is especially pleasing to Canadian grain men as hitherto these eastern markets have been controlled by the soft wheat from American grain districts.

## YOU CAN GET 150 MORE FOR A BUSHEL OF WHEAT

### That Is What You Can Do Provided You Take Advantage of Our Offer

We have made arrangements with the E. H. Heath Co., Limited, who publish the CANADIAN FARMER whereby we are able to offer that farm magazine together with our own weekly at the one price for both papers.

The CANADIAN POWER FARMER is Western Canada's biggest farm monthly. It is now in its twentieth year which means that it is thoroughly established throughout the West. It deals with the mechanical side of the farm. Every issue is full of helpful hints and experiences on the operation of all kinds of farm machinery from a washing-machine to a tractor. Its editor has just completed a trip of several months over Western Canada in a motor car for the purpose of studying the mechanical needs of the farmers. He visited the farmers, lived with them and worked with them. The results of his trip will appear during the next twelve months.

This offer may be withdrawn at any time. Without doubt your intention is to renew for this weekly, then why not take advantage now. Your subscription to THE CANADIAN POWER FARMER for the same price as this weekly alone. This is where you make \$150 on a bushel of wheat.

Mail your cheque or drop into our office the first time you are in town.
